RE: Art Design of Tears of Ukrainian Mothers

Dear Administrator Power,

In addition to our letter SCID-062023-008 dated June 20, 2023 (see Attachment A) we are sending corrections provided by President Biden to the SCHWIPAR Center for Innovational Development activities (see Attachment B with his letter dated June 12, 2023).

Please schedule a meeting "Teenagers of global countries and Police" - see Attachment C with System Dynamics map revealing the mechanism of terrorist formation in America for actions in America -PART II.

Sincerely,

Tatyana Ishutkina

RE: Art Design of Tears of Ukrainian Mothers

Dear Administrator Power,

A sensitive architect with models of a hopeless situation depicted in the figure is a new direction for the transfer of information for the development of housing construction in Ukraine. Canvas: president-war-freedom-achieving an equilibrium with the people represented by representatives of different socio-systems.

A uniformed team is being created from representatives of various construction specialties for the initial form of movement of this team from America to Ukraine. In Ukraine, in different places will be created in the context of the monuments of the past up to 1,000 residential properties of the proposed orientation of the sensitivity of the Ukrainian people to the arrangement of their way of life, home (monuments, Ukraine). An example is a house drawing for a stone-themed facility in Vermont created by Sean Cummings (see Attachment 1). The project Ukrainian houses is in the development of the formation of the headquarter of the shipbuilding industry of America in the cities of Nikolaev, Kherson, and Odessa. Shipbuilding industry headquarter with patent content.

Project cost \$4 billion - see Shipbuilder's Party poster in the Attachment 2.

Participating cities: through applications from mayors of Ukrainian cities.

Give Ukraine the eyes to see the representatives of the countries of the world as participants in the restoration of destroyed buildings during the war.

Journalists Nikolay Synkov and Tatyana Ishutkina and the leader of the movement Sean Cummings

**P.O. Box 197**  
**Avon, Connecticut, USA 06001**  
**Tel/Fax: 860 404 1781**  
**<http://www.schwipar.com>**

will present in the countries of the world.

The total cost of the project is \$25 billion with the final presentation of all houses built according to the art drawings of Sean Cummings.

Project technology during the trip of Sean Cummings with the team in Ukraine presents his vision through the drawings created by him "Places of Combat Battles".

Art team of observers from the Ukrainian population.

After agreeing and clarifying the details of the project, the artwork will be sent to make a house in America at a specific plant created for this project in the state of Vermont. Modular structures will make it possible to manufacture a house in Vermont, Then disassemble it into transportable parts and deliver it with installation in places open to the vision of these art houses by residents of Ukraine.

Background.

1. One of Fermata Arts Foundation's first appeals to USAID regarding the Russian intervention - see the system dynamics map in Attachment 3.
2. Letter of support from President Biden - see Attachment 4.

To the executive director of SCHWIPAR  
Mrs. Tatyana Ishutkina

Dear Tatyana,

We thank you for the offers of cooperation in the sphere of shipbuilding.

Unfortunately, we are compelled to note that a situation in shipbuilding, in particular, and in our city today, not the most favorable. But we are deeply convinced that the shipbuilding needs to be reinvigorated. Today plants still have expensive unique building berths, the experts working abroad are ready to return to the families, and the needs for shipping are increasing.

The management of plants is interested in the increase in production, performance of the obligations by the investor and, of course, in use of the best practices of other countries.

We are sure of need of revival of scientific and technical base of National University of Shipbuilding (NUS) named after Admiral Makarov, design base (perhaps, through development of student's design office on the basis of NUS), and also development of innovation and efficiency in shipbuilding.

The city of Nikolaev is ready and is always open for carrying out the international activities for discussion of prospects in development of sea transport and ship-building industry in general.

Taking into consideration everything stated above, we thank you for the interest you expressed. All materials sent by you will be transferred to NUS named after Admiral Makarov for detailed study by the academic council, and further, after stabilization of a political, economic and social situation in Ukraine, the Mayor's office of Nikolaev will contact you through department of foreign economic relationship and international cooperation (contacts: ph. (0512) 37 41 49, fax (0512) 37 12 92, e-mail: [ved\\_nikolaev@mail.ru](mailto:ved_nikolaev@mail.ru)).

With respect,

Mayor of City of Nikolaev

Y.I. Granaturov

Исполнительному директору SCHWIPAR  
г-же Татьяне Ишуткиной

Уважаемая Татьяна,

Благодарим Вас за предложения сотрудничества в сфере судостроения.

К сожалению, вынуждены констатировать, что ситуация в судостроении, в частности, и в нашем городе сегодня, не самая благоприятная. Но глубоко убеждены, что судостроение необходимо поднимать. На сегодняшний день заводы еще имеют дорогостоящие уникальные стапеля, специалисты, работающие за рубежом, готовы вернуться к своим семьям, а потребности в морских перевозках возрастают.

Руководство заводов заинтересовано в росте объемов производства, выполнении инвестором своих обязательств и, конечно, в использовании передового опыта других стран.

Мы уверены в необходимости возрождения научно-технической базы Национального университета кораблестроения им. Адмирала Макарова, конструкторской базы (возможно, через развитие студенческого конструкторского бюро на базе НУК), а также развития изобретательства и рационализаторства в судостроении.

Город Николаев готов и всегда открыт для проведения международных мероприятий для обсуждения перспектив развития морского транспорта и судостроительной отрасли в целом.

Принимая во внимание вышеизложенное, мы благодарим Вас за

проявленный Вами интерес. Все материалы, присланные Вами, будут переданы в НУК им. Адмирала Макарова для детального изучения ученым советом, и в дальнейшем, после стабилизации политической, экономической и социальной ситуации на Украине, мэрия г. Николаева будет контактировать с Вами через отдел внешнеэкономической деятельности и международного сотрудничества (контакты: тел. (0512) 37 41 49, факс (0512) 37 12 92, e-mail: ved\_nikolaev@mail.ru).

С уважением,

Мэр г. Николаева

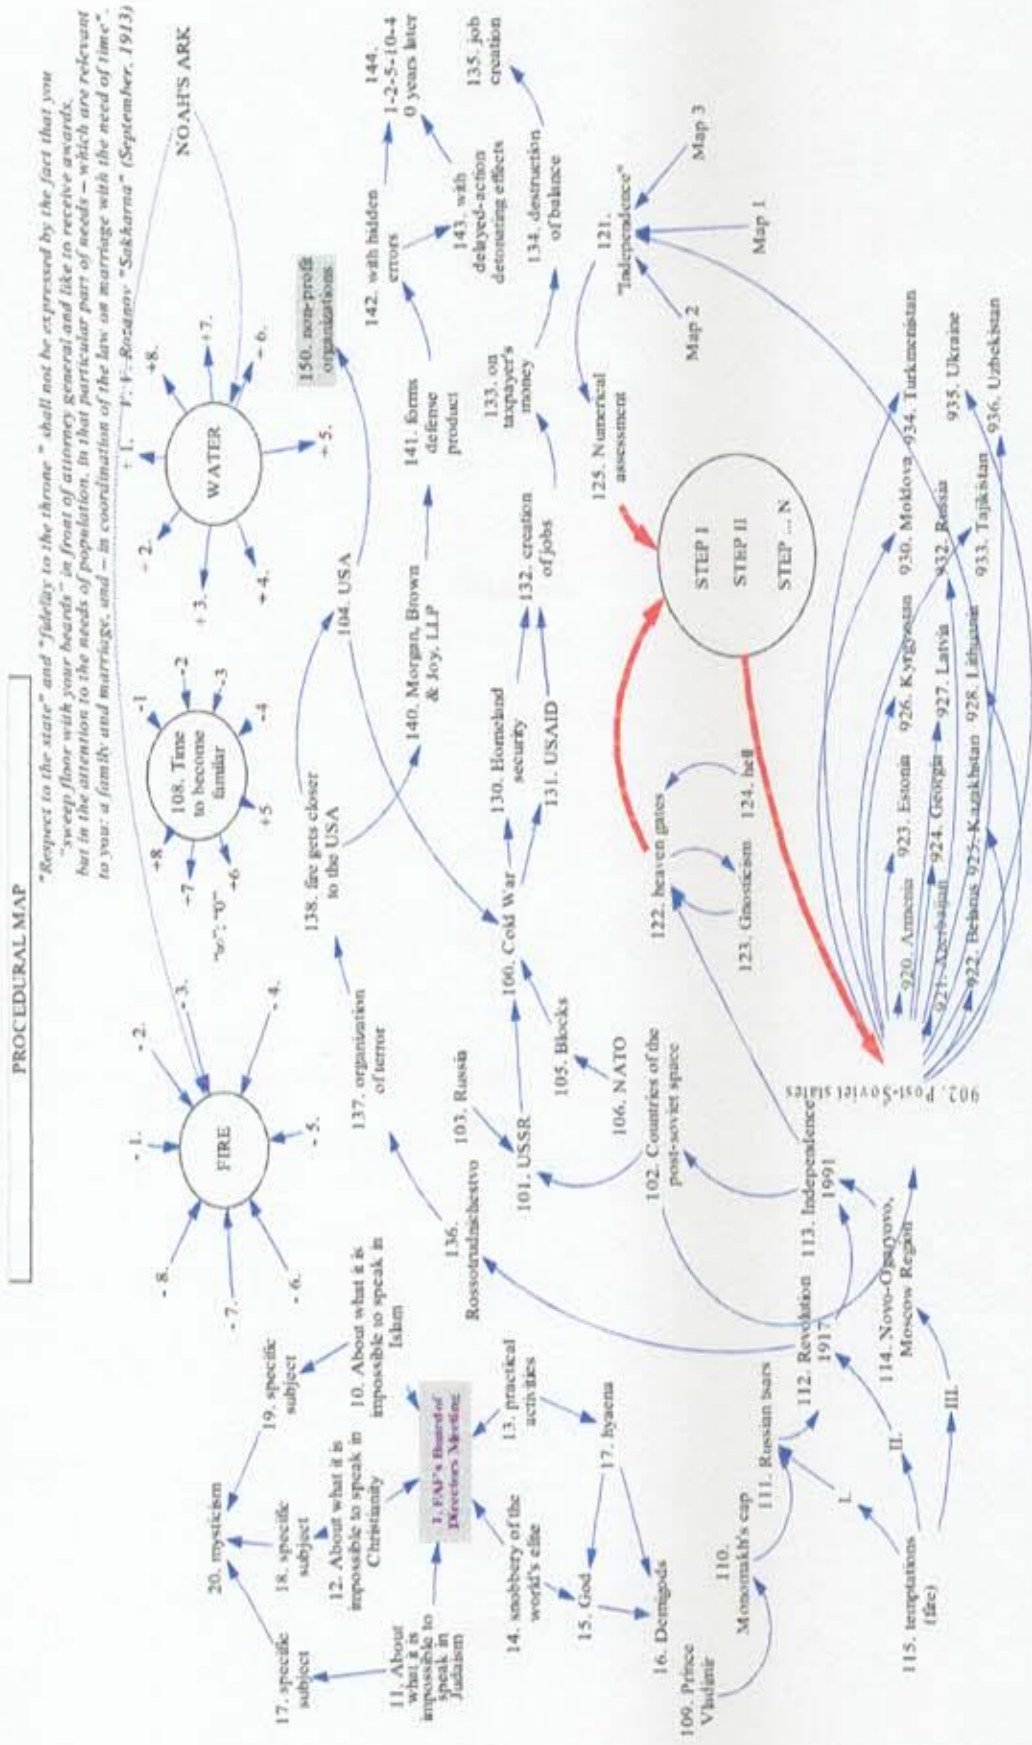

Ю.И. Гранатуров

THE WHITE HOUSE  
WASHINGTON

March 10, 2023

Tatyana Ishutkina and Nikolay Synkov  
Avon, Connecticut

Dear Tatyana and Nikolay,

Thank you for sharing your thoughts on Vladimir Putin's war on Ukraine. The United States stands with the brave and proud people of a free and democratic Ukraine as they continue to defend their country against Russia's aggression.

America has rallied our allies and partners around the world in response to the Kremlin's unprovoked and unjustified war. Together, we have imposed unprecedented sanctions to hold Putin accountable and raise the economic costs on Russia. We have protected the security of Europe by strengthening NATO's defenses and paving the way for Sweden and Finland to join NATO, making the most capable defensive alliance in the history of the world even stronger.

While Putin sought to weaken the West with his war, his actions have had the opposite effect. We have never been more united, and Russia's economy is suffering.

The United States will continue to stand with the people of Ukraine as they fight to defend themselves. We have provided significant military support to Ukraine, including artillery, advanced rocket systems, drones, and ammunition. We have also provided significant economic assistance to Ukraine so the Ukrainian government can continue to provide vital services to its people. We are the leading donor of humanitarian relief in support of the millions of people who have fled Ukraine because of the war. And we are leading the world in addressing the global food insecurity crisis, which has been made much worse by Putin's brutal war. We are doing all this while keeping American troops out of harm's way.

In the face of this brutal, unwarranted war, the courage and determination of the Ukrainian people continues to inspire the world. The United States, together with our allies and partners, will stand firm with the Ukrainian people as they fight to defend their freedom.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Biden". The signature is written in a cursive style and is positioned below the word "Sincerely,".
